

WAVV 2007 Session Agenda/Schedule

Friday May 18, 2007

Time	Room	Function
2:00 PM – 9:00 PM	KI Lobby South	Registration
6:00 PM – 6:45 PM	Meeting Room 6AB	WAVV-L Project Managers meeting
7:00 PM – 11:00 PM	Ballroom A	SPLASH

Saturday May 19, 2007

Time	Room	Function
7:00 AM – 7:00 PM	KI Lobby South	Registration

	Ballroom B-1 & 2	Ballroom B-3	Ballroom A-1	Ballroom A-2	Vendor 1 Ballroom A-3
Time					
8:00	WAVV-L Opening Session				
9:00	IBM Update			Spouse Meet and Greet	
10:30	Second Life - the future Market Place? VSE and Second Life!	Migrating to the z/VM Virtual Switch	What mother never told you about Cryptography	Automation of z/VSE with Open Source ANT	Cornerstone
11:45	z/VSE Version 4 News and Views	COBOL programming Tips	z/VM Update	IBM's Remote Support Structure	Tuning CICS/TS Has Never Been This Easy Using C\TREK
12:45	LUNCH	LUNCH	LUNCH	LUNCH	
1:45	Technical Insights into z/VSE Version 4	Bringing You Up to Date with System z Hardware	A Review of On Demand Solutions using z/VSE Connectors	Security and Audit concerns for zVSE user	Mantissa - New Strategies for Cost Effective Data Center Management
3:00	z/VSE Version 4 featuring MWLC Software Pricing for IBM System z9	NEW VSAM Tools	Virtualization Basics	Porting OpenSolaris to zSeries: A Long Way Home	Meet Fillmore's Flipper: IBM's New (and affordable) SMB Data Warehouse
4:15	z/VSE Performance Update	CICS/TS Storage and Performance Tuning Part 1	Introduction to the IBM Systems Storage DS6000	Linux Systems Management for the Mainframe Systems Programmer Part 1	
5:30	Run your Legacy VM and VSE Applications using DB2 for z/Linux	CICS/TS Storage and Performance Tuning Part 2	Wellness and VSE – How to Improve the Health of Your VSE System	Linux Systems Management for the Mainframe Systems Programmer Part 2	

Time	Room	Function
7:00 PM – 11:00 PM	KI Lobby South	SPLASH

Sunday May 20, 2007

Time	Room	Function
7:30 AM –5:00 PM	KI Lobby South	Registration

	Ballroom B-1 & 2	Ballroom B-3	Ballroom A-1	Ballroom A-2	Vendor 1 Ballroom A-3	Vendor 1 Ballroom A-4
Time						
7:00						Prayer and Praise
8:00	What is PNET?	DB2/UDB Performance	Approaches to Application Development for z/VSE	VSAM 2007 / New Features with z/VSE 4.1		
9:15	How to use POWER Pnet/RSCS	VSE Hot Topics	z/VM TCPIP Configuration	Linux Installation Planning	“Changing the Way You See Things” illustro	Entrée – Uncut and Unrated (24 x 7 Widescreen Version)” CSI
10:30	VSAM Performance Part 1	CICSTS Hot Topics	CSI TCPIP Update	Using Hobbit to Monitor Networked Services	Introducing HFD Technologies and BrightUser Security Audit	LRS – Output Management for VSE Applications
11:45	Network Performance Basics	Webifying VSE Applications	z/VM Perf. Introduction	A z/VM and Linux DR Cookbook, Part 1	z/VSE Version 4 featuring MWLC Software Pricing for IBM System z9	Mainline - Proof is in the “putting” on System z Linux
12:45	LUNCH	LUNCH	LUNCH	LUNCH		
3:00	z/VSE Security Concepts and News – Auditing	ALC 101	BSI TCPIP Update	A z/VM and Linux DR Cookbook, Part 2	Cornerstone	Data 21 - ZIP/VSE v5.x
4:15	z/VSE Security Exploitation with Crypto Hardware	CICS/TS Problem Determination – Insights from CICS Level 2 Support – Part 1	COBOL Dump Debugging	Building Robust scripts using bash 3.x Part 1	VSE2PDF: It's all about looking good to Management while cutting costs	Luminex - Mainframe Data De-Duplication & Tapeless Backup
5:30	Backup with Tivoli and Disaster Recovery for z/VSE	CICS/TS PD – Insights from CICS Level 2 Support – Part 2	Using z/VM in A SCSI environment	Building Robust scripts using bash 3.x Part 2	BSI - Is your data secure? How we can help?	“What's All the Buzz About Data-Miner?” CSI

Time	Room	Function
7:00 PM –11:00 PM	Exhibit Hall C	SPLASH with the Exhibits

Monday May 21, 2007

Time	Room	Function
7:30 AM –5:00 PM	KI Lobby South	Registration

	Ballroom B-1 & 2	Ballroom B-3	Ballroom A-1	Ballroom A-2	Vendor 1 Ballroom A-3	Vendor 2 Ballroom A-4
Time						
8:00	CICS User Experience and CICS Free-for-all	User Experiences with z/VSE Connectors – VSAM Redirector with Capture Exit	Tivoli Storage Manager Implementation on Linux	TS1120 Encryption Overview	Application Modernization MicroFocus	
9:15	TCPIP Perf. For TCPIP for VSE	z/VSE Health Checker -	z/VM Simplified Network Config.	Now that I have Linux what do I do with my JCL/JECL	“Changing the Way You See Things” illustro	LRS – Output Management for VSE Applications
10:30	Real World Disaster Recovery	SOA and zVSE: Implementing SOA using Web Services and Tools	OMEGAMON XE for z/VM and Linux	VSAM Performance Part 2	Security and Audit: It’s Better to Know	BSI Tuning / Performance Discussion
11:45	POWER - What’s New since VSE 2.5	CICS Web Applications	SNA Modernization – Preserving the Best, Transitioning the Rest	Selecting a Linux Distribution	Migrating from VSE to z/OS with the Mass Conversion Approach	HostBridge: Complete CICS Integration for VSE business applications
12:45	LUNCH	LUNCH	LUNCH	LUNCH		
3:00	VSE Internals	Connectors and DB2 – Workshop	Virtual Networking with z/VM	Communication Controller for Linux on System z Overview	Viaserv – ViaSQL Redirector	CSI Green Bay
4:15	VSE Tuning and Performance Methodology Part 1	SOA & CICS – Workshop	ALC 201	NJE on Linux		
5:30	VSE Tuning and Performance Methodology Part 2	EZA Sockets Programming. Part 1	A Beginner’s Guide to Measuring and Understanding z/VM Guest Performance	VM Parallel Access Volume (PAV) and HyperPAV Support	z/VSE Birds-of-a Feather	
Time	Room	Function				
7:00 PM –11:00 PM	KI Lobby South	SPLASH				

Tuesday May 22, 2007

	Ballroom B-1 & 2	Ballroom B-3	Ballroom A-1	Ballroom A-2
Time				
8:00	REXX Programming	EZA Sockets Programming Part 2	LE Implementation and Configuration	IBM Linux on System z Middleware
9:15	REXX for CICS	Taking advantage of the zVSE console enhancements	z/VM Security and Integrity	sudo: Beginner to Expert in One Hour
10:30	Requirements			
11:45	Free for All
